SUMMARY

Computer Science graduate student in Informatics Engineering at Indraprasta PGRI University with 5+ years of professional experience as a Full-Stack Web Developer. Skilled in designing modern user interfaces using frontend technologies and building robust applications with advanced backend technologies, including PHP, CodeIgniter, and Laravel. Passionate about delivering scalable solutions that solve real-world problems while collaborating effectively with cross-functional teams.

WORK EXPERIENCE

- Web Developer, PT Sumber Data Indonesia**

June 2025 - Present

 - Designed intuitive UI/UX wireframes and modern interfaces to enhance user experience for web-based applications.
 - Developed and redesigned scalable web applications using PHP, CodeIgniter, and Laravel.
 - Managed server deployment, system maintenance, and code integration using CI/CD pipelines and SSH.
- Software Engineer, PT Anarya Teknologi Indonesia**

Aug 2022 – Jan 2025

 - Conducted user interviews and gathered feedback requirements to translate user needs into functional software specifications.
 - Designed, developed, and tested robust applications from scratch based on technical and business requirements.
 - Performed routine software maintenance, performance tuning, and efficient bug fixing to ensure application stability.
- PHP Programmer, PT Khatulistiwa Mandala**

Apr 2019 - Dec 2021

 - Maintained, optimized, and managed existing web-based applications to ensure high performance and reliability.
 - Developed scalable backend software and web applications using Native PHP and Laravel framework.
 - Conducted comprehensive application testing, debugging, and iterative performance improvements.

EDUCATION

- Bachelor of Informatics Engineering**

2020-2024

University of Indraprasta PGRI

 - Final CGPA: 3.56

SKILLS

- Front-End.
 - Back-End.
 - Web performance.
 - Responsive design.
 - Version control.
- UI/UX Design.
 - Database Management System.
 - Deployment.
 - Indonesian (Native).
 - English (Professional Working Proficiency).

ACHIEVEMENTS

- BNSP Computer Programming 2019**

Certification in Computer Programming accredited by BNSP.
- EF SET English 2022**

English proficiency certificate.
